Let us focus on Enlightenment, manifesting super conscious breakthrough

If you know your identity, your core identity is super consciousness and your life is all about super consciousness, focus is expected to be super consciousness, you have a field which is unique to you.

No one else can play in that field.

A science which can be experienced, manifested.

This power which can be experienced and manifested can be converted into any form of currency you want: health, wealth, knowledge, longevity, relationships; in any form of currency you want to manifest you can manifest.

It is fundamental currency of the cosmos called *shakti*

Manifesting powers means - what you think as extraordinary because of your wrong bringing up.

The first myth you need to break - what has been wrongly taught to you. After all, people who taught you till now are human beings, forgive them. You don't need to be angry with them, but do not allow them inside you. Get rid of everyone. Unless you break the standards they taught you, you are not going to have a super conscious breakthrough.

Super conscious breakthrough means breaking all the standards you have been taught.

When I say *Conscious breakthrough*, your very experience of “I”, “Aham”, “I”, expands and perceives this Cosmos, cognizes, the Universe as ‘I’ in you continuously.

The good news I have is - you are capable. The great news I have - you don't need to do anything, I will do it for you.

If the powerfulness is awakened in you, whether you have wealth or not - you will live powerfully.

Your individual soul is a connection between the pure consciousness - Paramaśiva, and your body. Actually, the pure consciousness and you, you means your body, pure consciousness and your body is tied through a powerful conscious vibration, powerful words, conscious vibrations. Guru can change that programming ... and give you the best possible conscious frequency connection between you and your body. Your consciousness and body, that connection - Guru gives the best connection, ultimate connection. That connection awakens powerfulness in you

Some of the understanding about the units of physics, chemistry and biology.

Biology is your bio-memory.

When you add powerful cognitions, the actions and reactions happen is chemistry.

And what you manifest is physics - powers or powerlessness whatever, whatever. Unit of physics is power or powerlessness. That's all. Only these two unit. Any happening is only these two, deva, asura, that's all. Nothing else.

Tell Paramaśiva I know you are real

Not only Paramaśiva is my first priority Is the only priority. Let my independent intelligence consciousness, my will to feel good, bad, right, wrong my individual soul exist only as extension of Paramaśiva. Let me think what Paramaśiva wants Let me will what He likes Let me live as His extension. Whatever is good as per Paramaśiva, let that be good in me. Whatever is right as per Paramaśiva, let that be right in me, whatever are His powers as per Paramaśiva, let that be with me, whatever is right as per Paramaśiva let that manifest in me

Trinetra Tadak Meditation Entangling with Third Eye

Step 1: [7 minutes] By closing your eyes concentrate on the Third Eye. Feel as if you are drilling it from inside, drilling it from inside, visualize as if you are drilling it from inside;

Step 2: [7 minutes] Open your eyes, see through your Third Eye to the SPH's Third Eye. How to look? Imagine as if you are looking through the Third Eye. Visualize as if you are looking through the Third Eye, you are seeing through the Third Eye with the physical two eyes open
